## **WSGALT seeks accreditation**

The Land Trust Accreditation Commission (LTAC) recognizes and accredits land conservation organizations that meet national quality standards for protecting important natural places and working lands forever.

The Wyoming Stock Growers Agricultural Land Trust (WSGALT) is pleased to announce it is applying for renewal of its 2012 accreditation. A public comment period is now open.

LTAC invites public input and accepts signed, written comments on pending applications. Comments must relate to how WSGALT complies with national quality standards. These standards address the ethical and technical operation of a land trust.

For the full list of standards see [landtrustaccreditation.org/help-and-resources/indicator-practices](http://landtrustaccreditation.org/help-and-resources/indicator-practices).
